Subject: Children's Office Visits and EPSDT Screening Fees Corrections

Retroactive to dates of service on and after July 1, 2004, the Medical Assistance Administration (MAA) has corrected the originally published fees for children's office visits and Early Periodic Screening, Diagnosis, and Treatment (EPSDT) screenings listed in this memorandum.

Maximum Allowable Fee Corrections

When calculating the July 2004 maximum allowable fees for children's office visits and EPSDT screenings, MAA used incorrect conversion factors and relative value units (RVU). Therefore, the maximum allowable fees for these procedure codes (issued in Numbered Memorandum 04-36 and 04-52) were incorrect. The tables on the next page contain the correct maximum allowable fees.

MAA corrected these errors in the Medicaid Management Information System (MMIS) and in the online fee schedules on July 23, 2004. These corrections are retroactive to dates of service on and after July 1, 2004. MAA will make an internal adjustment to claims paid between July 1 and July 23 to pay at the correct rates. **Do not submit new claims or an adjustment form for services provided between these dates simply to correct rates.**
